

Session 6.1.1

I can use strategies for counting and combining groups of dots.

I can understand and write the different equations that equal one number.

I can use (+, -, =) to write equations.

Sessions 6.1.2 and 6.1.3

**I can quickly recall the
2-addend combinations of 10.**

**I can use turn around facts
and doubles of numbers up to
10.**

I can solve story problems.

I can use (+, -, =) to write equations.

Session 6.1.4

I can use strategies for counting and combining groups of dots.

I can use (+, -, =) to write equations.

**I can quickly recall the
2-addend combinations of 10.**

I can solve story problems.

Session 6.1.5

I can solve a problem in which the total and one part are known.

I can find relationships in different combinations of numbers up to 10.

Session 6.1.6

I can find pairs of numbers that equal 10.

I can solve a problem in which the total and one part are known.

I can find relationships in different combinations of numbers up to 10.

I can use (+, -, =) to write equations.

Session 6.1.7

I can find pairs of numbers that equal 10.

I can solve a problem in which the total and one part are known.

I can find relationships in different combinations of numbers up to 10.

I can use (+, -, =) to write equations.

Session 6.2.1

I can find, record, and prove all possible combinations of a given number.

Session 6.2.2

I can use clues to find all possible combinations of a given number.

Session 6.2.3

I can add 2 or more single-digit numbers.

I can use (+, -, =) to write equations.

Session 6.2.4

I can use clues to find all possible combinations of a given number up to 20.

I can write an equation for each combination of numbers with sums up to 20.

Session 6.2.5

I can find all possible
2-addend combinations of 10.

I can add 2 or more single-
digit numbers.

Session 6.2.6A

I can decide whether equations are true or false.

I can use (+, -, =) to write equations that are equal.

Session 6.3.1

I can add 2 or more single-digit numbers.

I can retell the action in an addition story problem.

Session 6.3.2

I can subtract one number from another.

I can write an equation to record the solution to a subtraction problem.

I can retell the action in a subtraction problem.

Session 6.3.3

I can add 2 or more single-digit numbers.

I can retell the action in a subtraction story problem.

**I can subtract one number
from another.**

Sessions 6.3.4-6.3.6

I can use strategies for solving addition and subtraction story problems.

I can use strategies for recording answers to story problems.

I can use (+, -, =) to write equations.

Session 6.3.7

I can use strategies for solving addition and subtraction story problems.

I can use strategies for recording answers to story problems.

I can use (+, -, =) to write equations.

I can add and subtract single-digit numbers.

Session 6.3.8

I can solve and record
addition and subtraction
story problems.
